

AbiCAD

AutoCAD Draughtsperson

Salary dependant on experience

AutoCAD Draughtsperson: An ambitious AutoCAD Draughtsperson with experience working on building envelope detailing & material scheduling for commercial cladding, roofing & rainscreen applications, is required for **AbiCAD**, an established specialist provider of AutoCAD sub-contracting services for building envelope systems.

This is an exciting opportunity for an AutoCAD Draughtsperson seeking more rewarding work, taking responsibility for complete projects from design stage through to construction, working in close partnership with architects and contractors throughout.

Your responsibilities include the production of layouts, detail drawings and material scheduling in a variety of roofing, cladding and rainscreen systems (i.e. Kingspan / Kalzip / Trespa).

Projects can range from several months to 1 year+, often for prestigious clients. Previous projects include Wembley and Twickenham Rugby Stadium, International Airports, and new Hospitals.

Skills & Experience:

- Proven AutoCAD Draughtsperson
- Revit & Solidworks experience would be an advantage
- Roofing / Cladding / Rainscreen focus in current work
- Meticulous attention to detail
- Thrives on responsibility and being proactive
- Strong communication skills and relationship builder
- Commercial awareness
- Able to work alone but also a Team Player

This an exciting opportunity for an experienced AutoCAD Draughtsperson seeking to focus on roofing, cladding and rainscreen systems, working for one of the UK's most highly regarded sub-contractors using AutoCAD, deployed on the latest HP 420 Workstations.

AbiCAD is a private company, who are ISO9001 certified and offer a professional, flexible working environment, bonus scheme and discretionary private medical insurance.
